Victor Martinez Resume/CV

SUMMARY

I have 4 years' experience in server solutions, software development and data mining/ data structures. I worked in a software development company for 2 years, offering infrastructure solutions using Linux, Unix and Windows servers, specially installing, configuring and using different solutions.

Later, I started working in Colombia's biggest Financial Institution offering end user solutions to different Requirements the business needed, specially focused on analytic and data mining tools. I use Data mining tools (SAS EG), Databases (SQL Server/DB2) and big Data structures (with Cloudera tools such as Impala/Hive). Also I've had used different programming languages, such as Python, ASP, Javascript, vba; However I've used Python more often, wich I used to different Scraping solutions (using Scrapy/Beautifulsoup), Web development (With Flask mostly) and whatever automation solution/ Data processing needs in the Area.

SKILLS: WHAT I DO...

- Process **automation** specially when they are something related to data management.
- Knowledge in SQL, SAS, Python, Javascript
- Server **administration** including installing, configuration and use of new technology, software or databases
- I am **fast learner**, which is good because I can offer a good adaptation to any subject.
- My **communication** and relationship with coworkers and any other people is very good, adding always a good environment.
- Good at documenting and reading documentation

EXPERIENCE

Grupo Bancolombia – Software developer – August 2015 to now:

- Data management and report construction with SAS, Pandas.
- Developing with python automating processes
- Use of different technologies such as SQL, SAS, Impala/Hadoop

TSGroup – Systems Analyst – March 2014 to July 2015:

- Responsible of servers deployment and monitoring.
- Involvement in projects related to big data, specifically in the development stage and automation of servers deployment.

- Installation, configuration and use of software like IBM Websphere Portal and Domino in Linux and Windows

EDUCATION

I have an Associate Degree of applied science in computer networking technology and graduated from the [National Service of Learning](#) in 2013

ABOUT ME

I'm from Medellin - Colombia, I have truly passion for learning new things, reading, playing with arduino and raspberry, running and traveling. I'm open to works in other countries, I speak spanish, english and currently I'm learning German. You cand find me also in [Linkedin](#).
