Victor Martinez Resume/CV

SUMMARY

I'm a software developer with experience in process automation, scraping, servers administration, data mining.

I've also written some other things in C and Javascript. I am a really restless person, everyday I try to learn something new, not because I have to, just because I like it.

SKILLS: WHAT I DO...

- Automate **processes** specially when they are something related to data management.
- Administer **servers,** including installing, configuration and use of new technoloy, software or databases
- I am **fast learner,** which is good because I can offer a good adaptation to any subject.
- My **communication** and relationship with coworkers and any other people is very good, adding always a good environment.
- Good at documenting and reading documentation

EXPERIENCE

Grupo Bancolombia – Software developer – August 2015 to now:

- Data mining and report construction
- Data management and report construction with SAS, Pandas.
- Developing with python automating processes

TSGroup – Systems Analyst – March 2014 to July 2015:

- Responsible of servers deployment and monitoring.
- Involvment in projects related to big data, specifically in the development stage and automation of servers deployment.
- Installation, configuration and use of software like IBM Websphere Portal and Domino in Linux and Windows

EDUCATION

I have an Associate Degree of applied science in computer networking technology and graduated from the National Service of Learning in 2013

ABOUT ME

I'm from Medellin - Colombia, I have truly passion for learning new things, reading, playing with arduino and raspberry, running and traveling. I'm open to works in other countries, I speak spanish, english and currently I'm learning German.
